PERSONAL STATEMENT

IT professional with a Computer Science background and hands-on experience supporting and engineering K-12 technology infrastructure. Skilled in systems administration, endpoint management, and user support, with a background in full-stack development. Eager to bring technical depth and a people-first approach to an IT support or engineering role.

EDUCATION

University of Minnesota, Duluth

B.S. Computer Science

Sep 2019 – Dec 2023 | GPA: 3.7

SKILLS

Languages: TypeScript, JavaScript, Python, HTML/CSS, C++, Kotlin

Frontend: React, Astro.js, Tailwind CSS, SCSS

Backend & Data: Node.js, PostgreSQL, Firebase

Deployment: Git & GitHub, CI/CD, Vercel, Netlify, Cloudflare

IT & Systems: Mosyle MDM, Active Directory, Google Workspace Admin, Linux/macOS/Windows

PROJECTS

colesteele.me

Personal portfolio and project hub showcasing full-stack development work, built with Astro.js and Tailwind CSS, deployed via Netlify.

temtefadezzz.com

Pro bono client site built in collaboration with a college friend for a local barber launching her own business. Designed and delivered a professional web presence from scratch using Astro.js, Tailwind CSS, and Keystatic CMS, deployed via Cloudflare.

WORK EXPERIENCE

Information Technology Specialist

Apr 2024 – Present

Belle Plaine Public Schools, Belle Plaine, MN

- Administered Infinite Campus SIS, managing system configuration, user access/permissions, and student and staff data integrity, while serving as the technical support contact for staff, students, and community.
- Managed district-wide device deployment and MDM enrollment through Mosyle and Google Admin, handling user account provisioning, app configuration, and policy enforcement across K-12 devices.
- Acted as the primary, front-facing IT contact for the district, resolving hardware, software, and network support tickets through Freshdesk, delivering hands-on, in-person support to K-12 staff and students across multiple buildings.

Mosquito Technician

May 2022 – Sep 2022

Mosquito Squad of Northeast Minnesota, Cloquet, MN

- Serviced a diverse client base of over 1,000 accounts across Northeastern Minnesota.
- Communicated directly with commercial and residential clients to apply restricted-use pesticides legally and effectively.
- Utilized contracting software to codify client information and pesticide use to EPA standards.

Operations Manager

Feb 2020 – Mar 2021

Amazon, Shakopee, MN

- Led and structured teams of 5–10 to improve staff morale and optimize associate performance.
- Coordinated warehouse teams with external shipping contractors to facilitate optimal package flow.
- Utilized management software to sort and interpret statistical data pertinent to facility operations.
